Environmental Policy

Stonehaven Tolbooth Association (STA) acknowledges the connection between the climate and other environmental crises and the threat of current and future homelessness, disease, food and water shortages and poverty for millions of people around the world, as well as the major damage being caused to our natural eco-systems. It therefore recognises its responsibility to reduce its carbon and environmental footprints and formally commits itself to being an environmentally responsible charity.

STA is committed to minimising the impact of its activities on the environment.

The key points of its strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote the shop's product range to minimise the environmental impact of both production and distribution.
- Reduce electricity consumption by installing low wattage LED lights.
- Meet or exceed all the environmental legislation that relates to the charity.

Induction procedures for volunteers, and any employees, will include information on the charity's environmental practices.
